FACILITIES

TRAINING EFFICIENCY

Alexandroupolis airport allows students to fly solo, as there are several training areas around the airport within the TMA (Terminal Monitoring Area) or close to it and many appropriate licensed airfields.

SAFETY

Your safety is the main priority and it will not be compromised at Alexandroupolis airport. Wide runway (9.800 ft. and 50 ft.), ILS/CAT I,II, VOR/DME,NDB, radar vectoring, commercial traffic, are providing a valuable experience from initial phase of training till the advanced VFR/IFR training.

EXCELLENT WEATHER

The excellent weather conditions in Alexandroupolis facilitate uninterrupted training all year round, without wasting precious time and money.

In summer, high temperatures are usually between 27 and 33 degrees Celsius, although sometimes climb higher.

In the fall and winter months, nights are significantly cooler, and normal daytime high temperatures are between 21 and 25 degrees Celsius.

FLEET

CADETS
HAVE ACCESS
TO STATE OF

AVIATION
EQUIPMENT.

- Cessna 172 Diesel | Full IFR
- Tecnam ME P2006 T | Full IFR
- F/S ELITE FNPT II | SEP-MEP | MCC
- F/S A320 FTD 2 | MCC-APS | JOC

FLYING
IS AN ART

ABOUT US

Olympus Aviation founded by veteran Air Force and Civil Aviation Flight Instructors, following the highest EASA standards. Olympus Aviation provides professional pilot training, at all levels, from Zero to ATPL (Air Transport Pilot Licence). The Academy maintains a high degree of discipline, necessary for building a future aviators' skills and character.

THE ART OF FLYING

There is no casual approach on learning to fly. A successful flying career is only possible by obtaining the best training during the formative hours of aviation training. Flying is an art and the art of flying is being taught and learned by the right staff.

MEET THE RIGHT STAFF

Highly qualified tutors who draw their training experience (Air Force and airline) to make your course enjoyable and rewarding. Skilled in staff management, security and safety, briefing and leadership of highly skilled pilots, demonstrate instructional abilities in a demanding commercial environment, through execution of syllabus design, management and revision for entry level pilots, while providing effective training, supervision and assessment. Ground Instructors with proven specialized skills and long time experience in aviation are the right staff for our candidates.
